

BINGO

PLAY THE WORLD

Bingo is one of the fastest growing segments of the online gaming industry. Bring your brand online and tap into this large, emerging growth market to attract the broader mainstream consumer and expand your gaming audience. Give your players the authentic experience of CryptoLogic's bingo software and drive new revenue opportunities for your business.

ADVANTAGE: BUSINESS

- Fully customizable turnkey solutions, tailored to *your* brand
- Flexibility to operate your own site or join a centralized bingo hall
- Advanced operator tools let you set your own features:
 - set new games and new patterns
 - change the speed of games
 - schedule special promotional games
 - chat master feature allows you to interact with your players
 - analyze game and player activity
- Set regularly scheduled games or specialized tournaments
- Set game card price levels and prize amounts

ADVANTAGE: PLAYER

- Multiple prize levels, progressive jackpots and guaranteed winners
- Purchase sets of cards like in a real bingo hall
- Automatic card-marking option for easy play
- Customize your dauber, choose your caller
- Real-time chat creates a social environment for your bingo community
- Enjoy video slots while you wait for the next game – all on the same screen

TOTAL SUPPORT FOR LASTING SUCCESS

Our complete gaming solution is complimented by:

- Integrated ECash management in multiple currencies
- 24/7 customer and technical support in multiple languages
- A broad range of payment options
- Management tools for successful marketing and promotions
